Let us give fresh impetus to No Forwarding Charges by This the Winter campaign, if we would advance on the road to the pacification of the island. Time passes-'74 follows '73 -the enemy will gain time and territory, and we will have cause to deplore our criminal vacilation. Without a great and united movement on our part war will drag on as it has to the present hour. It has consumed annually from 10,000 to 150,000 soldier and \$40,000,000. When we find ourselves fallen, never to rise again, we will bitterly repeut our

short-sighted lack of preparation." The La Voz de Cuba shows that pro onged resistance at Cartagena is drawing the resources of Spain and weakening her power. Castellar is not strong enough now to oppose the exactious of a foreign government, which nearly all tend to the destruction of Cuba, and the longer his declining power is respected and obeyed in Cuba, the greater is the probability that the object of these foreign demands will be accomplished.
